

MOHD AHTESHAM

Full-Stack Developer

+91 8090303615 fshahtesham@gmail.com www.fsdshan.in UP, Gonda

SUMMARY

I am a full-stack MERN stack developer with extensive experience in developing and implementing scalable multiuser web applications. I specialize in REST API, authentication, and databases, and am adept at designing solutions that are efficient and maintainable. My passion lies in creating AI-based SaaS solutions and Workflow Automation that enhance user experiences and operational efficiencies

EDUCATION

Bachelor of Computer Applications (BCA)

Dr. Ram Manohar Lohia Awadh University

09/2022 - 07/2025 Faizabad

PROJECTS

MediaStack – Multi-User Blogging Platform

mediastack.in

Tech Stack: MongoDB, Express.js, React.js, Node.js

- Developed a full-stack blogging platform supporting secure CRUD operations.
- Implemented JWT-based authentication and protected API routes.
- Designed one-to-many user-post data relationships.
- Applied MVC architecture for scalable backend design.
- Built responsive UI using React and Tailwind CSS.

Backend-Ledger API – Banking Backend System

Tech Stack: Node.js, Express.js

- Developed a banking-style backend system handling authentication, account management, and transactions.
- Implemented credit/debit logic with balance validation and ledger-based transaction tracking.
- Ensured data consistency using structured transaction flow and centralized error handling.
- Designed modular routing architecture for scalable backend development.

SmailyZo – AI Appointment Booking System

Tech Stack: TypeScript, Node.js, React, Vapi, n8n, Antigravity AI

- Built an AI-powered dental appointment booking system with real-time voice interaction.
- Integrated Vapi and Antigravity AI for intelligent conversational handling.
- Developed backend APIs for scheduling, availability validation, and booking management.
- Automated notifications and logs using n8n workflows with scalable backend architecture.

KEY ACHIEVEMENTS

Built Real-World Full-Stack Applications

Developed multi-user and AI-integrated web applications including a blogging platform and AI appointment booking system

Designed Production-Style Backend Systems

Implemented authentication, transaction handling, and ledger-based architecture in a banking-style backend project.
